#### Overview

We are a business development company (“BDC”) that seeks to generate both current income and capital appreciation through debt and equity investments. We invest primarily in the debt instruments of middle-market companies and small businesses, generally in the form of senior secured and unsecured notes, as well as senior secured loans, junior loans and mezzanine debt. We will from time to time make equity investments as part of restructuring credits or in specialty finance businesses which offer significant earnings potential and which we deem complementary to the Company’s corporate credit portfolio.

On September 27, 2016, we and Great Elm Capital Management, Inc. (“GECM”), our external manager, entered into an investment management agreement (the “Investment Management Agreement”) and an administration agreement (the “Administration Agreement”), and we began to accrue obligations to GECM under those agreements. The Investment Management Agreement renews for successive annual periods, subject to requisite Board and/or stockholder approvals.

We have elected to be treated as a Regulated Investment Company (“RIC”) for U.S. federal income tax purposes. As a RIC, we will not be taxed on our income to the extent that we distribute such income each year and satisfy other applicable income tax requirements. To qualify as a RIC, we must, among other things, meet source-of-income and asset diversification requirements and annually distribute to our stockholders generally at least 90% of our investment company taxable income on a timely basis. If we qualify as a RIC, we generally will not have to pay corporate level taxes on any income that we distribute to our stockholders.

#### Investments

Our level of investment activity can and does vary substantially from period to period depending on many factors, including, among others, the amount of debt and equity capital available from other sources to middle-market companies, the level of merger and acquisition activity, pricing in the high yield and leveraged loan credit markets, our expectations of future investment opportunities, the general economic environment and the competitive environment for the types of investments we make. As a BDC, our investments and the composition of our portfolio are required to comply with regulatory requirements.

#### Revenues

We generate revenue primarily from interest on the debt investments that we hold. We may also generate revenue from dividends on the equity investments that we hold, capital gains on the disposition of investments, and lease, fee, and other income. Our investments in fixed income instruments generally have an expected maturity of three to five years, although we have no lower or upper constraint on maturity. Our debt investments generally pay interest quarterly or semi-annually. Payments of principal of our debt investments may be amortized over the stated term of the investment, deferred for several years or due entirely at maturity. In some cases, our debt investments and preferred stock investments may defer payments of cash interest or dividends or pay-in-kind (“PIK”). In addition, we may generate revenue in the form of prepayment fees, commitment, origination, due diligence fees, end-of-term or exit fees, fees for providing significant managerial assistance, consulting fees and other investment-related income.

## *Expenses*

Our primary operating expenses include the payment of a base management fee, administration fees (including the allocable portion of overhead under the Administration Agreement), and, depending on our operating results, an incentive fee. The base management fee and incentive fee remunerates GECM for work in identifying, evaluating, negotiating, closing and monitoring our investments. The Administration Agreement provides for reimbursement of costs and expenses incurred for office space rental, office equipment and utilities allocable to us under the Administration Agreement, as well as certain costs and expenses incurred relating to non-investment advisory, administrative or operating services provided by GECM or its affiliates to us. We also bear all other costs and expenses of our operations and transactions. In addition, our expenses include interest on our outstanding indebtedness.

## **Critical Accounting Policies**

### *Valuation of Portfolio Investments*

We value our portfolio investments at fair value based upon the principles and methods of valuation set forth in policies adopted by our board of directors (our "Board"). Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Market participants are buyers and sellers in the principal (or most advantageous) market for the asset that (1) are independent of us; (2) are knowledgeable, having a reasonable understanding about the asset based on all available information (including information that might be obtained through due diligence efforts that are usual and customary); (3) are able to transact for the asset; and (4) are willing to transact for the asset (that is, they are motivated but not forced or otherwise compelled to do so).

Investments for which market quotations are readily available are valued at such market quotations unless the quotations are deemed not to represent fair value. We generally obtain market quotations from recognized exchanges, market quotation systems, independent pricing services or one or more broker-dealers or market makers. However, short-term debt investments with remaining maturities within 90 days are generally valued at amortized cost, which approximates fair value.

Debt and equity securities for which market quotations are not readily available or for which market quotations are deemed not to represent fair value, are valued at fair value using a valuation process consistent with our Board-approved policy. Our Board approves in good faith the valuation of our portfolio as of the end of each quarter. Due to the inherent uncertainty and subjectivity of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from the values that we may ultimately realize. In addition, changes in the market environment and other events may impact the market quotations used to value some of our investments.

The valuation process approved by our Board with respect to investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value is as follows:

- The investment professionals of GECM provide recent portfolio company financial statements and other reporting materials to an independent valuation firm (or firms) approved by our Board;
- Such firms evaluate this information along with relevant observable market data to conduct independent appraisals each quarter, and their preliminary valuation conclusions are documented and discussed with senior management of GECM;
- The fair value of investments comprising in the aggregate less than 5% of our total capitalization and individually less than 1% of our total capitalization may be determined by GECM in good faith in accordance with our valuation policy without the employment of an independent valuation firm; and
- Our audit committee recommends, and our Board determines, the fair value of the investments in our portfolio in good faith based on the input of GECM, our independent valuation firms (to the extent applicable) and the business judgment of our audit committee and our Board, respectively.

Those investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that we may take into account in determining the fair value of our investments include, as relevant and among other factors: available current market data, including relevant and applicable market trading and transaction comparables; applicable market yields and multiples, security covenants, call protection provisions, information rights and the nature and realizable value of any collateral; the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, and merger and acquisition comparables; and enterprise values.

We prefer the use of observable inputs and minimize the use of unobservable inputs in our valuation process. Inputs refer broadly to the assumptions that market participants would use in pricing an asset. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset developed based on market data obtained from sources independent of us. Unobservable inputs are inputs that reflect our assumptions about the assumptions market participants would use in pricing an asset developed based on the best information available in the circumstances.

Investments are classified in accordance with accounting principles generally accepted in the United States of America ("GAAP") into three broad levels as follows:

- Level 1 Investments valued using unadjusted quoted prices in active markets for identical assets.
- Level 2 Investments valued using other unadjusted observable market inputs, e.g. quoted prices in markets that are not active or quotes for comparable instruments.
- Level 3 Investments that are valued using quotes and other observable market data to the extent available, but which also take into consideration one or more unobservable inputs that are significant to the valuation taken as a whole.

All Level 3 investments that comprise more than 5% of the investments of GECC are valued by independent third parties.

#### ***Revenue Recognition***

Interest and dividend income, including PIK income, is recorded on an accrual basis. Origination, structuring, closing, commitment and other upfront fees, including original issue discounts ("OID"), earned with respect to capital commitments are generally amortized or accreted into interest income over the life of the respective debt investment, as are end-of-term or exit fees receivable upon repayment of a debt investment if such fees are fixed in nature. Other fees, including certain amendment fees, prepayment fees and commitment fees on broken deals, and end-of-term or exit fees that have a contingency feature or are variable in nature are recognized as earned. Prepayment fees and similar income due upon the early repayment of a loan or debt security are recognized when earned and are included in interest income.

We may purchase debt investments at a discount to their face value. Discounts on the acquisition of corporate debt instruments are generally amortized using the effective-interest or constant-yield method, unless there are material questions as to collectability.

#### ***Net Realized Gains (Losses) and Net Change in Unrealized Appreciation (Depreciation)***

We measure realized gains or losses by the difference between the net proceeds from the repayment or sale of an investment and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized. Realized gains and losses are computed using the first-in, first-out method.

Net change in unrealized appreciation or depreciation reflects the net change in portfolio investment fair values and portfolio investment cost bases during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

(2) The per share amounts are based on a weighted average of 10,652,401 shares for each of the three and six months ended June 30, 2018.

Investment income consists of interest income, including net amortization of premium and accretion of discount on loans and debt securities, dividend income and other income, which primarily consists of amendment fees, commitment fees and funding fees on loans.

The decrease in interest income for each of the three and six months ended June 30, 2019 as compared to the corresponding periods in the prior year is primarily due to the April 2018 restructuring of our investment in Avanti Communications Group plc's ("Avanti") third lien senior secured notes (the "third lien notes"), in which the third lien notes were converted into Avanti common equity which is currently non-income producing. The third lien notes accrued \$1.5 million and \$3.5 million of interest income during the three and six months ended June 30, 2018, respectively. The decrease in interest income was partially offset by increased interest income due to overall growth in our interest earning investment portfolio in the current year.

Interest income included non-cash PIK income of \$1.2 million and \$2.4 million for the three and six months ended June 30, 2019, respectively, and \$1.7 million and \$5.0 million for the three and six months ended June 30, 2018, respectively. The year-over-year decreases in non-cash PIK income for the periods presented is primarily due to the debt-for-equity conversion of the third lien notes along with a decrease in the interest rate on Avanti's second lien senior secured notes, which we still held as an investment as of June 30, 2019.

The increase in dividend income for each of the three and six months ended June 30, 2019 as compared to the corresponding periods in the prior year is primarily attributable to the dividends earned from the Company's investment in Prestige Capital Corporation ("Prestige") which was acquired in February 2019.

The increase in other income for each of the three and six months ended June 30, 2019 as compared to the corresponding periods in the prior year is primarily attributable to commitment and funding fees earned on our May 2019 investment in Avanti's 1.5 lien senior secured notes.

Expenses are largely comprised of advisory fees and administration fees paid to GECM and interest expense on our outstanding notes payable. See “—Liquidity and Capital Resources.” Advisory fees include management fees and incentive fees calculated in accordance with the Investment Management Agreement, and administration fees include direct costs reimbursable to GECM under the Administration Agreement and fees paid for sub-administration services.

Incentive fees for each of the three and six months ended June 30, 2018 included a one-time reversal of \$2.6 million of incentive fees recorded in prior periods. This reversal was the result of the conversion of the third lien notes in April 2018 discussed above under “—Investment Income”. As a result of this debt-for-equity conversion, it was determined that the accrued incentive fees payable associated with the portion of accrued PIK interest generated by the third lien notes should not at this time be recognized as a liability. Notwithstanding this reversal, such incentive fees remain payable under the Investment Management Agreement (subject to achievement of return hurdles) and will be recognized as an expense to the extent that an exit or recovery from our Avanti investment results in gross proceeds to us in excess of our initial cost basis in the third lien notes. Excluding the impact of the reversal and an additional \$0.2 million of incentive fees which were not recognized for the three months ended June 30, 2018 as a result of the restructuring, incentive fees would have been \$0.8 million and \$1.8 million for the three and six months ended June 30, 2018, respectively.

Administration fees for the three and six months ended June 30, 2019 decreased as compared to the three and six months ended June 30, 2018 due to one-time costs associated with staff restructuring at GECM.

The increase in interest expense for the three and six months ended June 30, 2019 as compared to the three and six months ended June 30, 2018 is primarily due to the issuance of \$46.4 million in aggregate principal amount of 6.75% notes due 2025 (the “GECCM Notes”) in January and February 2018 and the issuance of \$42.5 million in aggregate principal amount of 6.50% notes due 2024 (the “GECCN Notes”) in June 2019, which resulted in a weighted average outstanding debt balance of \$85.1 million and \$82.1 million for the three and six months ended June 30, 2019, respectively, as compared to \$79.0 million and \$74.4 million for the three and six months ended June 30, 2018, respectively.

Other expenses include various administrative expenses such as shareholder services, filing, transfer agency and insurance costs. The decrease in other expenses for the three and six months ended June 30, 2019 as compared to the three and six months ended June 30, 2018 is primarily related to the timing of work performed by these service providers, and the resultant billing schedules.

During the three months ended June 30, 2019, net realized gains were primarily driven by realized gains of approximately \$0.3 million on the sale of our investment in Michael Baker International, LLC secured bonds during the quarter. During the six months ended June 30, 2019, net realized gains were largely driven by the sale of our investment in International Wire Group, Inc. secured bonds which resulted in a realized gain of approximately \$1.1 million along with an additional \$0.1 million in realized gains as a result of acceleration of OID. Gross realized losses for the six months ended June 30, 2019 were primarily comprised of the realized loss of approximately \$0.8 million on the sale of our investment in Sungard Availability Services Capital, Inc. secured loans.

During the three months ended June 30, 2018, net realized gains were primarily related to realized gains resulting from the sale of our investment in PR Wireless, Inc.'s senior secured loan and a partial sale of our investment in NANA Development Corp. senior secured bonds. Net realized gains for the six months ended June 30, 2018 also included realized gains in connection with the accelerated accretion of OID on loans initially acquired at a discount and a partial repayment of our investment in PE Facility Solutions, LLC term loan B.

(2) The per share amounts are based on a weighted average of 10,652,401 shares for each of the three and six months ended June 30, 2018.

For each of the three and six months ended June 30, 2019, the net unrealized depreciation was largely driven by decreases in the valuation of portfolio investments, increases in our cost basis due to accretion of discount on loans and debt securities and the exit of investments which had unrealized appreciation in prior periods. We recognized unrealized depreciation of \$6.7 million and \$3.6 million on our investments in Avanti bonds and equity for the three and six months ended June 30, 2019, respectively, primarily driven by changes in the fair value of the loans. For the three and six months ended June 30, 2019, we recognized unrealized depreciation of \$0.8 million and \$1.4 million, respectively, on our investment in Commercial Barge Line Company (“Commercial Barge”), for which approximately half of the unrealized depreciation in each period is attributable to increases in cost basis due to the accretion of discount. Similarly, we recognized unrealized depreciation of \$0.5 million and \$1.0 million, respectively, over the same periods on our investment in PFS Holdings Corp., of which nearly all of the unrealized depreciation in each period is attributable to increases in cost basis due to the accretion of discount.

Unrealized depreciation for each of the three and six months ended June 30, 2019, was partially offset by unrealized appreciation due to increases in the valuation of certain portfolio investments. For example, for the three months ended June 30, 2019 we recognized unrealized appreciation of \$0.5 million on our investment in Finastra Group Holdings, Ltd. (“Finastra”), \$0.4 million on our investment in Prestige and \$0.2 million on our investment in Research Now Group, Inc. (“Research Now”) first lien secured revolver, and for the six months ended June 30, 2019, we recognized unrealized appreciation of \$1.0 million on our investment in Finastra, \$0.4 million on our investments in Research Now and \$0.2 million on our investment in Tallage Davis, LLC. In addition, for the six months ended June 30, 2019, the restructuring of our investment in Tru Taj, LLC (“Tru Taj”) and the subsequent valuation of the resulting common stock in TRU (UK) Asia Limited and TRU (UK) Asia Limited Liquidating Trust we received in such restructuring in exchange for Tru Taj debt securities, resulted in net unrealized appreciation of approximately \$1.0 million.

For each of the three and six months ended June 30, 2018, the net unrealized depreciation was primarily driven by lower valuations of our portfolio investments. Most notably, we recognized net unrealized depreciation of \$6.3 million and \$8.3 million on our investment in Avanti bonds and equity for the three and six months ended June 30, 2018, respectively. In addition, we recognized unrealized depreciation of \$0.3 million and \$1.7 million on our investment in OPS Acquisition Limited, and \$0.4 million and \$2.9 million on our investment in Tru Taj, for the three and six months ended June 30, 2018, respectively. These losses were partially offset by unrealized appreciation on other portfolio investments, most notably Commercial Barge, for which we recognized unrealized appreciation of \$0.8 million and \$0.9 million for the three and six months ended June 30, 2018, respectively.

## Liquidity and Capital Resources

At June 30, 2019, we had approximately \$2.5 million of cash and cash equivalents, none of which was restricted in nature. At June 30, 2019, we also had \$50.3 million invested in a money market fund that is classified as an investment rather than cash and cash equivalents.

At June 30, 2019, we had investments in 27 debt instruments across 22 companies, totaling approximately \$173.2 million at fair value and seven equity investments in six companies, totaling approximately \$31.0 million at fair value.

In the normal course of business, we may enter into investment agreements under which we commit to make an investment in a portfolio company at some future date or over a specified period of time. As of June 30, 2019, we had approximately \$20.2 million in unfunded loan commitments, subject to our approval in certain instances, to provide debt financing to certain of our portfolio companies. We had sufficient cash and other liquid assets on our June 30, 2019 balance sheet to satisfy the unfunded commitments.

For the six months ended June 30, 2019, net cash used for operating activities, consisting primarily of net purchases of investments and the items described in “—Results of Operations,” was approximately \$29.1 million, reflecting the purchases and repayments of investments offset by net investment income, including non-cash income related to accretion of discount and PIK income and proceeds from sales of investments and principal payments received. Net cash provided by purchases and sales of investments was approximately \$16.6 million, reflecting additional investments of \$114.3 million, offset by principal repayments and sales of \$97.7 million. Such amounts include draws and repayments on revolving credit facilities.

For the six months ended June 30, 2019, net cash provided by financing activities was \$27.5 million, which consisted of \$40.3 million in proceeds from the GECCN Notes offering (discussed under “—Notes Payable” below) offset by \$7.8 million in distributions to investors and \$3.4 million in repurchases of the Company’s common stock through our current stock buyback program.

### Contractual Obligations

A summary of our significant contractual payment obligations as of June 30, 2019 is as follows:

<i>(in thousands)</i>	<b>Total</b>	<b>Less than 1 year</b>	<b>1-3 years</b>	<b>3-5 years</b>	<b>More than 5 years</b>
<b>Contractual Obligations</b>					
GECCL Notes	\$ 32,631	\$ -	\$ -	\$ 32,631	\$ -
GECCM Notes	46,398	-	-	-	46,398
GECCN Notes	42,500	-	-	42,500	-
<b>Total</b>	<b>\$ 121,529</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ 75,131</b>	<b>\$ 46,398</b>

We have certain contracts under which we have material future commitments. Under the Investment Management Agreement, GECM provides investment advisory services to us. For providing these services, we pay GECM a fee, consisting of two components: (1) a base management fee based on the average value of our total assets and (2) an incentive fee based on our performance.

We are also party to the Administration Agreement with GECM. Under the Administration Agreement, GECM furnishes us with, or otherwise arranges for the provision of, office facilities, equipment, clerical, bookkeeping, finance, accounting, compliance and record keeping services at such office facilities and other such services as our administrator.

If any of the contractual obligations discussed above are terminated, our costs under any new agreements that we enter into may increase. In addition, we would likely incur significant time and expense in locating alternative parties to provide the services we expect to receive under our Investment Management Agreement and our Administration Agreement. Any new investment management agreement would also be subject to approval by our stockholders.

Both the Investment Management Agreement and the Administration Agreement may be terminated by either party without penalty upon no fewer than 60 days' written notice to the other.

#### ***Off-Balance Sheet Arrangements***

There were no off-balance sheet arrangements, including any risk management of commodity pricing or other hedging practices, as of and for the three months ended June 30, 2019.

#### ***Notes Payable***

On September 18, 2017, we sold \$28.4 million in aggregate principal amount of 6.50% notes due 2022 (the "GECCL Notes"). On September 29, 2017, we sold an additional \$4.3 million of the GECCL Notes upon full exercise of the underwriters' over-allotment option. As a result of the issuance of these additional GECCL Notes, the aggregate principal balance of the GECCL Notes outstanding is \$32.6 million.

The GECCL Notes are our unsecured obligations and rank equal with all of our outstanding and future unsecured unsubordinated indebtedness. The GECCL Notes are effectively subordinated, or junior in right of payment, to any future secured indebtedness that we may incur and structurally subordinated to all future indebtedness and other obligations of our subsidiaries. We pay interest on the GECCL Notes on January 31, April 30, July 31 and October 31 of each year. The GECCL Notes will mature on September 18, 2022 and can be called on, or after, September 18, 2019. Holders of the GECCL Notes do not have the option to have the GECCL Notes repaid prior to the stated maturity date. The GECCL Notes were issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

On January 11, 2018, we sold \$43.0 million in aggregate principal amount of the GECCM Notes. On January 19, 2018 and February 9, 2018, we sold an additional \$1.9 million and \$1.5 million, respectively, of the GECCM Notes upon partial exercise of the underwriters' over-allotment option. As a result of the issuance of these additional GECCM Notes, the aggregate principal balance of the GECCM Notes outstanding is \$46.4 million.

The GECCM Notes are our unsecured obligations and rank equal with all of our outstanding and future unsecured unsubordinated indebtedness. The GECCM Notes are effectively subordinated, or junior in right of payment, to any future secured indebtedness that we may incur and structurally subordinated to all future indebtedness and other obligations of our subsidiaries. We pay interest on the GECCM Notes on March 31, June 30, September 30 and December 31 of each year. The GECCM Notes will mature on January 31, 2025 and can be called on, or after, January 31, 2021. Holders of the GECCM Notes do not have the option to have the GECCM Notes repaid prior to the stated maturity date. The GECCM Notes were issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

On June 18, 2019, we sold \$42.5 million in aggregate principal amount of the GECCN Notes, which included \$2.5 million of GECCN Notes sold in connection with the partial exercise of the underwriters' over-allotment option. On July 5, 2019, we sold an additional \$2.5 million of the GECCN Notes upon another partial exercise of the underwriters' over-allotment option. As a result of the issuance of these additional GECCN Notes, the aggregate principal balance of the GECCN Notes outstanding is \$45.0 million.

The GECCN Notes are our unsecured obligations and rank equal with all of our outstanding and future unsecured unsubordinated indebtedness. The GECCN Notes are effectively subordinated, or junior in right of payment, to any future secured indebtedness that we may incur and structurally subordinated to all future indebtedness and other obligations of our subsidiaries. We pay interest on the GECCN Notes on March 31, June 30, September 30 and December 31 of each year beginning September 30, 2019. The GECCN Notes will mature on June 30, 2024 and can be called on, or after, June 30, 2021. Holders of the GECCN Notes do not have the option to have the GECCN Notes repaid prior to the stated maturity date. The GECCN Notes were issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

#### **Recent Developments**

In July 2019:

- we bought \$4.3 million of par value of California Pizza Kitchen, Inc. ("California Pizza Kitchen") second lien secured loan at approximately 95% of par value.

- we bought \$3.0 million of par value of California Pizza Kitchen first lien secured loan at approximately 96% of par value.
- we bought \$0.3 million of par value of Peninsula Pacific Entertainment, LLC first lien secured loan at approximately 100% of par value.
- we bought \$4.0 million of par value of Shearer's Foods, LLC second lien secured loan at approximately 99% of par value.
- we bought \$3.0 million of par value of Tensar Corp. first lien secured loan at approximately 95% of par value.

On July 5, 2019 we sold an additional \$2.5 million of the GECCN Notes upon partial exercise of the underwriters' over-allotment option.

On July 31, 2019, we completed the sale of PE Facility Solutions, LLC ("PEFS"), a majority-owned subsidiary of the Company, to Kellermeyer Bergensons Services for \$23.75 million. As of June 30, 2019, the outstanding principal amount of the Company's senior secured revolving loan, senior secured term loan A and senior secured term loan B to PEFS was approximately \$19.8 million in the aggregate. Although PEFS was a subsidiary of the Company, the Company did not consolidate PEFS in its consolidated financial statements in accordance with GAAP.

In August 2019:

- we bought \$10.0 million of par value of Mitchell International, Inc. second lien secured loan at approximately 94% of par value.
- we bought \$3.0 million of par value of Boardriders, Inc. first lien secured loan at approximately 98% of par value.
- \$14.9 million of par value of SESAC Holdco II LLC second lien secured loan was paid down at approximately 100% of par value.
- we bought \$1.5 million of par value of ASP Chromaflo Intermediate Holdings, Inc. at approximately 99% of par value.

Our Board declared the monthly distributions for the third quarter of 2019 at an annual rate of approximately 9.7% of our June 30, 2019 net asset value, which equates to \$0.083 per month. All of the monthly distributions are from net investment income. The schedule of distribution payments will be established by GECC pursuant to authority granted by our Board.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are subject to financial market risks, including changes in interest rates. As of June 30, 2019, four debt investments in our portfolio bore interest at a fixed rate, and the remaining 23 debt investments were at variable rates, representing approximately \$44.4 million and \$128.8 million in debt at fair value, respectively. The variable rates are based upon the London Interbank Offered Rate ("LIBOR").

To illustrate the potential impact of a change in the underlying interest rate on our net investment income, we have assumed a 1%, 2%, and 3% increase and 1%, 2%, and 3% decrease in the underlying LIBOR, and no other change in our portfolio as of June 30, 2019. We have also assumed that there are no outstanding floating rate borrowings by the Company. See the following table for the effect the rate changes would have on net investment income.

LIBOR Increase (Decrease)	Increase (decrease) of Net Investment Income	
3.00%	\$	5,899
2.00%		3,933
1.00%		1,966
(1.00)%		(1,428)
(2.00)%		(2,158)
(3.00)%		(2,371)

Although we believe that this analysis is indicative of our existing interest rate sensitivity at June 30, 2019, it does not adjust for changes in the credit quality, size and composition of our portfolio, and other business developments, including borrowing under a credit facility, that could affect the net increase in net assets resulting from operations. Accordingly, no assurances can be given that actual results would not differ materially from the results under this hypothetical analysis.

#### Item 4. Controls and Procedures.

##### Evaluation of Disclosure Controls and Procedures

As of June 30, 2019, we, including our Chief Executive Officer and Interim Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”). Based on that evaluation, our management, including our Chief Executive Officer and Interim Chief Financial Officer, concluded that our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed in our periodic filings with the Securities and Exchange Commission (“SEC”) is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Interim Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

##### Changes in Internal Controls Over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the quarter ended June 30, 2019 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II—OTHER INFORMATION

#### Item 1. Legal Proceedings.

From time to time, we or GECM may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. There have been no material updates to the legal proceedings previously disclosed in our Form 10-K.

##### Item 1A. Risk Factors.

We have disclosed the risk factors affecting our business, financial condition and/or operating results in the section entitled “Risk Factors” in our Form 10-K. There have been no material changes from the risk factors previously disclosed.

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Common stock repurchases during the three months ended June 30, 2019 were:

Month	Total Number of Shares Purchased	Average Price Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program (in thousands)
April 1-30, 2019	116,883	\$ 8.26	308,883	\$ 2,437
May 1-31, 2019	277,044	8.65	585,927	33
June 1-30, 2019	3,792	8.71	589,719	-
<b>Total</b>	<b>397,719</b>	<b>\$ 8.54</b>	<b>589,719</b>	<b>\$ -</b>

In March 2019, we implemented a stock buyback program pursuant to Rule 10b5-1 and Rule 10b-18 under the Exchange Act authorizing us to repurchase our common stock in open market transactions in an aggregate amount of up to \$5.0 million through December 2019, unless extended or terminated by our Board. During the three months ended June 30, 2019, we purchased 397,719 shares of our common stock.

There were no unregistered sales of our equity securities during the three months ended June 30, 2019.

- (1) The Company's investments are generally acquired in private transactions exempt from registration under the Securities Act of 1933 and, therefore, are generally subject to limitations on resale, and may be deemed to be "restricted securities" under the Securities Act of 1933.
- (2) A majority of the Company's variable rate debt investments bear interest at a rate that is determined by reference to London Interbank Offered Rate ("LIBOR" or "L") and which is reset daily, monthly, quarterly or semiannually. For each debt investment, the Company has provided the interest rate in effect as of period end. If no reference to LIBOR is made, the rate is fixed. A floor is the minimum rate that will be applied in calculating an interest rate. A cap is the maximum rate that will be applied in calculating an interest rate. The one month ("1M") LIBOR as of period end was 2.40%. The three month ("3M") LIBOR as of period end was 2.32%. The six month ("6M") LIBOR as of period end was 2.20%.

- (3) "Controlled Investments" are investments in those companies that are "Controlled Investments" of the Company, as defined in the Investment Company Act. A company is deemed to be a "Controlled Investment" of the Company if the Company owns more than 25% of the voting securities of such company.
- (4) "Affiliate Investments" are investments in those companies that are "Affiliated Companies" of the Company, a defined in the Investment Company Act, which are not "Controlled Investments." A company is deemed to be an "Affiliate" of the Company if the Company owns 5% or more, but less than 25%, of the voting securities of such company.
- (5) Investments classified as Level 3 whereby fair value was determined by the Company's board of directors.
- (6) Security pays, or has the option to pay, all of its interest in kind.
- (7) Non-income producing security.
- (8) Investment was on non-accrual status as of period end.
- (9) The interest rate on these loans includes a default interest rate.
- (10) Indicates assets that the Company believes do not represent "qualifying assets" under Section 55(a) of the Investment Company Act. Qualifying assets must represent at least 70% of the Company's total assets at the time of acquisition of any additional non-qualifying assets. Of the Company's total assets, 18.4% were non-qualifying assets as of period end.
- (11) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. Such security may be sold in certain transactions (normally to qualified institutional buyers) and remain exempt from registration.
- (12) Under the terms of the credit agreement, this investment has an exit fee which requires the borrower to pay, in connection with each prepayment or other repayment a fee equal to 2.50% of the amount being repaid.
- (13) As of period end, the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$2,629; the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$70,876; the net unrealized depreciation was \$68,247; the aggregate cost of securities for Federal income tax purposes was \$397,374.

- The Company's investments are generally acquired in private transactions exempt from registration under the Securities Act of 1933 and, therefore, are generally subject to limitations on resale, and may be deemed to be "restricted securities" under the Securities Act of 1933.
- A majority of the Company's variable rate debt investments bear interest at a rate that is determined by reference to London Interbank Offered Rate ("LIBOR" or "L") and which is reset daily, monthly, quarterly or semiannually. For each debt investment, the Company has provided the interest rate in effect as of period end. If no reference to LIBOR is made, the rate is fixed. A floor is the minimum rate that will be applied in calculating an interest rate. A cap is the maximum rate that will be applied in calculating an interest rate. The one month ("1M") LIBOR as of period end was 2.50%. The three month ("3M") LIBOR as of period end was 2.81%.
- "Controlled Investments" are investments in those companies that are "Controlled Investments" of the Company, as defined in the Investment Company Act. A company is deemed to be a "Controlled Investment" of the Company if the Company owns more than 25% of the voting securities of such company.
- "Affiliate Investments" are investments in those companies that are "Affiliated Companies" of the Company, as defined in the Investment Company Act, which are not "Controlled Investments." A company is deemed to be an "Affiliate" of the Company if the Company owns 5% or more, but less than 25%, of the voting securities of such company.
- Investments classified as Level 3 whereby fair value was determined by the Company's board of directors.
- Security pays, or has the option to pay, all of its interest in kind.
- Non-income producing security.

- (8) Investment was on non-accrual status as of period end.
- (9) The interest rate on these loans includes a default interest rate.
- (10) Indicates assets that the Company believes do not represent “qualifying assets” under Section 55(a) of the Investment Company Act. Qualifying assets must represent at least 70% of the Company’s total assets at the time of acquisition of any additional non-qualifying assets. Of the Company’s total assets, 25.9% were non-qualifying assets as of period end.
- (11) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. Such security may be sold in certain transactions (normally to qualified institutional buyers) and remain exempt from registration.
- (12) As of period end, the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$1,694; the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$49,881; the net unrealized depreciation was \$(48,187); the aggregate cost of securities for Federal income tax purposes was \$310,459.

**GREAT ELM CAPITAL CORP.**  
**NOTES TO THE UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**  
Dollar amounts in thousands, except share and per share amounts

**1. ORGANIZATION**

Great Elm Capital Corp. (the “Company”) was formed on April 22, 2016 as a Maryland corporation. The Company is structured as an externally managed, non-diversified closed-end management investment company. The Company elected to be regulated as a business development company (a “BDC”) under the Investment Company Act of 1940, as amended (the “Investment Company Act”). The Company is managed by Great Elm Capital Management, Inc., a Delaware corporation (“GECM”), a subsidiary of Great Elm Capital Group, Inc., a Delaware corporation (“Great Elm Capital Group”).

The Company seeks to generate current income and capital appreciation through debt and equity investments. The Company invests primarily in secured and senior unsecured debt instruments that it purchases in the secondary markets.

**2. SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation.** The Company’s functional currency is U.S. dollars and these consolidated financial statements have been prepared in that currency. The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to Regulation S-X and Regulation S-K. These financial statements reflect all adjustments (consisting of normal recurring items or items discussed herein) that management believes are necessary to fairly state results for the interim periods presented. Results of operations for interim periods are not necessarily indicative of annual results of operations. The Company is an investment company following accounting and reporting guidance in Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946, *Financial Services – Investment Companies*.

Amounts related to dividend receivable were previously reported within prepaid expenses and other assets on the consolidated statements of assets and liabilities on our Form 10-K for the year ended December 31, 2018. These have been reclassified to dividends receivable in the consolidated statements of assets and liabilities to conform to current period presentation.

**Basis of Consolidation.** Under the Investment Company Act, Article 6 of Regulation S-X and the American Institute of Certified Public Accountants’ Audit and Accounting Guide for Investment Companies, the Company is generally precluded from consolidating any entity other than another investment company or an operating company which provides substantially all of its services and benefits to the Company. The accompanying consolidated financial statements include the Company’s accounts and the accounts of the Company’s wholly-owned subsidiary, TFC-SC Holdings, LLC. All intercompany balances and transactions have been eliminated in consolidation.

**Use of Estimates.** The preparation of the consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ materially.

**Revenue Recognition.** Interest and dividend income, including income paid in kind, is recorded on an accrual basis. Origination, structuring, closing, commitment and other upfront fees, including original issue discounts, earned with respect to capital commitments, are generally amortized or accreted into interest income over the life of the respective debt investment, as are end-of-term or exit fees receivable upon repayment of a debt investment if such fees are fixed in nature. Other fees, including certain amendment fees, prepayment fees and commitment fees on broken deals, and end-of-term or exit fees that have a contingency feature or are variable in nature are recognized as earned. Prepayment fees and similar income due upon the early repayment of a loan or debt security are generally included in interest income.

Interest income received as paid-in-kind (“PIK”) is reported separately in the Statements of Operations. Income is included as PIK if the instrument solely provides for settlement in kind. In the event that the borrower can settle in kind or via cash payment, the income is not included as PIK until the borrower elects to pay in kind and the payment is received by the Company. In the event there is a lesser cash rate in a PIK toggle instrument, income is accrued at the lesser cash rate until the coupon is paid in kind and such larger payment is received by the Company.

Certain of the Company's debt investments were purchased at a discount to par as a result of the underlying credit risks and financial results of the issuer, as well as general market factors that influence the financial markets as a whole. Discounts on the acquisition of corporate debt instruments are generally amortized using the effective-interest or constant-yield method assuming there are no material questions as to collectability.

**Net Realized Gains (Losses) and Net Change in Unrealized Appreciation (Depreciation).** The Company measures realized gains or losses by the difference between the net proceeds from the repayment or sale of an investment and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized. Realized gains and losses are computed using the first-in, first-out method. Net change in unrealized appreciation or depreciation reflects the net change in portfolio investment values and portfolio investment cost bases during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

**Cash and Cash Equivalents.** Cash and cash equivalents typically consist of bank demand deposits.

**Valuation of Portfolio Investments.** The Company carries its investments in accordance with ASC Topic 820, Fair Value Measurements and Disclosures ("ASC 820"), which defines fair value, establishes a framework for measuring fair value and requires disclosures about fair value measurements. Fair value is generally based on quoted market prices provided by independent pricing services, broker or dealer quotations or alternative price sources. In the absence of quoted market prices, broker or dealer quotations or alternative price sources, investments are measured at fair value as determined by the Company's board of directors (the "Board of Directors").

Due to the inherent uncertainties of valuation, certain estimated fair values may differ significantly from the values that would have been realized had a ready market for these investments existed, and these differences could be material. See Note 4.

The Company values its portfolio investments at fair value based upon the principles and methods of valuation set forth in policies adopted by our Board. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Market participants are buyers and sellers in the principal (or most advantageous) market for the asset that (1) are independent of the Company, (2) are knowledgeable, having a reasonable understanding about the asset based on all available information (including information that might be obtained through due diligence efforts that are usual and customary), (3) are able to transact for the asset, and (4) are willing to transact for the asset (that is, they are motivated but not forced or otherwise compelled to do so).

Investments for which market quotations are readily available are valued at such market quotations unless the quotations are deemed not to represent fair value. The Company generally obtains market quotations from recognized exchanges, market quotation systems, independent pricing services or one or more broker-dealers or market makers. Short term debt investments with remaining maturities within ninety days are generally valued at amortized cost, which approximates fair value. Debt and equity securities for which market quotations are not readily available, which is the case for many of the Company's investments, or for which market quotations are deemed not to represent fair value, are valued at fair value using a consistently applied valuation process in accordance with the Company's documented valuation policy that has been reviewed and approved by our Board, who also approve in good faith the valuation of such securities as of the end of each quarter. Due to the inherent uncertainty and subjectivity of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from the values that the Company may ultimately realize. In addition, changes in the market environment and other events may have differing impacts on the market quotations used to value some of the Company's investments than on the fair values of our investments for which market quotations are not readily available. Market quotations may be deemed not to represent fair value in certain circumstances where the Company believes that facts and circumstances applicable to an issuer, a seller or purchaser, or the market for a particular security cause current market quotations to not reflect the fair value of the security.

The valuation process approved by our Board with respect to investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value is as follows:

- The investment professionals of GECEM provide recent portfolio company financial statements and other reporting materials to an independent valuation firm (or firms) approved by our Board;
- Such firms evaluate this information along with relevant observable market data to conduct independent appraisals each quarter, and their preliminary valuation conclusions are documented, discussed, and iterated with senior management of GECEM;
- The fair value of investments comprising in the aggregate less than 5% of the Company's total capitalization and individually less than 1% of the Company's total capitalization may be determined by GECEM in good faith in accordance with the Company's valuation policy without the employment of an independent valuation firm.

The Company's audit committee recommends, and our Board approves, the fair value of the investments in the Company's portfolio in good faith based on the input of GECEM, the respective independent valuation firms (to the extent applicable) and the inputs of each of our Board and the audit committee of our Board.

Those investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that the Company may take into account in determining the fair value of its investments include, as relevant and among other factors: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, merger and acquisition comparables, and enterprise values.

**Foreign Currency Translation.** Amounts denominated in foreign currencies are translated into U.S. dollars on the following basis: (1) investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates effective on the date of valuation; and (2) purchases and sales of investments and income and expense items denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates prevailing on the transaction dates. The portion of gains and losses on foreign investments resulting from fluctuations in foreign currencies is included in net realized and unrealized gain or loss from investments.

**U.S. Federal Income Taxes.** From inception to September 30, 2016, the Company was a taxable association under Internal Revenue Code of 1986, as amended (the "Code"). The Company has elected to be taxed as a regulated investment company ("RIC") under subchapter M of the Code. The Company intends to operate in a manner so as to qualify for the tax treatment applicable to RICs in that taxable year and all future taxable years. In order to qualify as a RIC, among other things, the Company will be required to timely distribute to its stockholders at least 90% of investment company taxable income ("ICTI") including PIK interest, as defined by the Code, for each taxable year in order to be eligible for tax treatment under subchapter M of the Code. Depending on the level of ICTI earned in a tax year, the Company may choose to carry forward ICTI in excess of current year dividend distributions into the next tax year. Any such carryover ICTI must be distributed prior to the 15th day of the ninth month after the tax year-end. So long as the Company maintains its status as a RIC, it generally will not be subject to corporate-level U.S. federal income taxes on any ordinary income or capital gains that it distributes at least annually to its stockholders as distributions. Rather, any tax liability related to income earned by the Company represents obligations of the Company's stockholders and will not be reflected in the consolidated financial statements of the Company.

If the Company does not distribute (or is not deemed to have distributed) each calendar year the sum of (1) 98% of its net ordinary income for each calendar year, (2) 98.2% of its capital gain net income for the one-year period ending October 31 in that calendar year and (3) any income recognized, but not distributed, in preceding years (the "Minimum Distribution Amount"), the Company will generally be required to pay an excise tax equal to 4% of the amount by which Minimum Distribution Amount exceeds the distributions for the year. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such taxable income, the Company accrues excise taxes, if any, on estimated excess taxable income as taxable income is earned using an annual effective excise tax rate. The annual effective excise tax rate is determined by dividing the estimated annual excise tax by the estimated annual taxable income.

The Company has not accrued any excise tax expense for the three and six months ended June 30, 2019. The Company accrued \$180 of excise tax expense for the year ended December 31, 2018.

At December 31, 2018, the Company, for federal income tax purposes, had capital loss carryforwards of \$46,161 which will reduce its taxable income arising from future net realized gains on investment transactions, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of distributions to shareholders, which would otherwise be necessary to relieve the Company of any liability for federal income tax. On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the "Modernization Act") was signed by the President. The Modernization Act changed the capital loss carryforward rules as they relate to regulated investment companies. Capital losses generated in tax years beginning after the date of enactment may now be carried forward indefinitely, and retain the character of the original loss. Of the capital loss carryforwards at December 31, 2018, \$46,161 are limited losses and available for use subject to annual limitation under Section 382. Of the capital losses at December 31, 2018, \$16,815 are short-term and \$29,346 are long term.

ASC 740 *Accounting for Uncertainty in Income Taxes* ("ASC 740") provides guidance on the accounting for and disclosure of uncertainty in tax position. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Based on its analysis of its tax position for all open tax years (the current and prior years, as applicable), the Company has concluded that it does not have any uncertain tax positions that met the recognition or measurement criteria of ASC 740. Such open tax years remain subject to examination and adjustment by tax authorities.

### Recent Accounting Developments

In March 2017, FASB issued ASU No. 2017-08; *Receivables – Nonrefundable Fees and Other Costs (Subtopic 310-20) Premium Amortization on Purchased Callable Debt Securities* ("ASU 2017-08"). The amendments in this Update shorten the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. On January 1, 2019, the Company adopted ASU 2017-08 on a modified retrospective basis, however, there was no impact on the accompanying consolidated financial statements and related disclosures.

**Fair Value Measurements** In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, resulting in various disclosures related to fair value measurements being eliminated, modified or supplemented. ASU 2018-13 is effective for interim and annual periods beginning after December 15, 2019, with an option to early adopt any eliminated or modified disclosures, and to delay adoption of the additional disclosures, until the effective date. On September 1, 2018, the Company early adopted the eliminated and modified disclosures of ASU 2018-13 and, as a result, updated its financial statement disclosures accordingly. A modified narrative description of measurement uncertainty for level 3 fair value measurements was applied prospectively, with all other amendments applied retrospectively.

### 3. SIGNIFICANT AGREEMENTS AND RELATED PARTIES

**Investment Management Agreement.** The Company has an investment management agreement (the "Investment Management Agreement") with GECM. Beginning on November 4, 2016, the Company began accruing for GECM's fees for its services under the Investment Management Agreement. This fee consists of two components: a base management fee and an incentive fee.

The Company's Chief Executive Officer is also the chief investment officer of GECM, and the chief executive officer and a member of the board of directors of GEC. The Company's Chief Compliance Officer is also the chief operating officer, chief compliance officer and general counsel of GECM, and the president and chief operating officer of GEC. The Company's Interim Chief Financial Officer is also the interim chief financial officer of GECM.

**Management Fee** The base management fee is calculated at an annual rate of 1.50% of the Company's average adjusted gross assets, including assets purchased with borrowed funds. The base management fee is payable quarterly in arrears. The base management fee is calculated based on the average value of the Company's gross assets, excluding cash and cash equivalents, at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the then current calendar quarter. Base management fees for any partial quarter are prorated.

For the three and six months ended June 30, 2019 management fees amounted to \$742 and \$1,448, respectively. For the three and six months ended June 30, 2018 management fees amounted to \$754 and \$1,447, respectively. As of June 30, 2019 and December 31, 2018, \$742 and \$740 remained payable, respectively.

**Incentive Fee** The incentive fee consists of two components that are independent of each other with the result that one component may be payable even if the other is not. One component of the incentive fee is based on income (the “Income Incentive Fee”) and the other component is based on capital gains (the “Capital Gains Incentive Fee”).

The Income Incentive Fee is calculated on a quarterly basis as 20% of the amount by which the Company’s pre-incentive fee net investment income (the “Pre-Incentive Fee Net Investment Income”) for the quarter exceeds a hurdle rate of 1.75% (7.0% annualized) of the Company’s net assets at the end of the immediately preceding calendar quarter, subject to a “catch-up” provision pursuant to which GECM receives all of such income in excess of the 1.75% level but less than 2.1875% (8.75% annualized) and subject to a total return requirement (described below). The effect of the “catch-up” provision is that, subject to the total return provision, if pre-incentive fee net investment income exceeds 2.1875% of the Company’s net assets at the end of the immediately preceding calendar quarter, in any calendar quarter, GECM will receive 20.0% of the Company’s pre-incentive fee net investment income as if the 1.75% hurdle rate did not apply. These calculations will be appropriately prorated for any period of less than three months and adjusted for any share issuances or repurchases during the then current quarter.

Pre-Incentive Fee Net Investment Income includes any accretion of original issue discount, market discount, payment-in-kind interest, payment-in-kind dividends or other types of deferred or accrued income, including in connection with zero coupon securities, that the Company and its consolidated subsidiaries have recognized in accordance with GAAP, but have not yet received in cash (collectively, “Accrued Unpaid Income”). Pre-Incentive Fee Net Investment Income does not include any realized capital gains or losses or unrealized capital appreciation or depreciation. Accrued Unpaid Income as of June 30, 2019 was \$19,868. Accrued Unpaid Income includes \$2,784 of PIK income capitalized during the six months ended June 30, 2019. Accrued Unpaid Income as of December 31, 2018 was \$14,571, which included PIK income of \$10,321 capitalized during the year ended December 31, 2018.

Any Income Incentive Fee otherwise payable with respect to Accrued Unpaid Income (collectively, the “Accrued Unpaid Income Incentive Fees”) is deferred, on a security by security basis, and becomes payable only if, as, when and to the extent cash is received by the Company or its consolidated subsidiaries in respect thereof. Any Accrued Unpaid Income that is subsequently reversed in connection with a write-down, write-off, impairment or similar treatment of the investment giving rise to such Accrued Unpaid Income will, in the applicable period of reversal, (1) reduce Pre-Incentive Fee Net Investment Income and (2) reduce the amount of Accrued Unpaid Income Incentive Fees previously deferred.

We will defer cash payment of any Income Incentive Fee otherwise payable to the investment adviser in any quarter (excluding Accrued Unpaid Income Incentive Fees with respect to such quarter) that exceeds (1) 20% of the Cumulative Pre-Incentive Fee Net Return (as defined below) during the most recent twelve full calendar quarter period ending on or prior to the date such payment is to be made (the “Trailing Twelve Quarters”) less (2) the aggregate incentive fees that were previously paid to the investment adviser during such Trailing Twelve Quarters (excluding Accrued Unpaid Income Incentive Fees during such Trailing Twelve Quarters and not subsequently paid). “Cumulative Pre-Incentive Fee Net Return” during the relevant Trailing Twelve Quarters means the sum of (a) pre-incentive fee net investment income in respect of such Trailing Twelve Quarters less (b) net realized capital losses and net unrealized capital depreciation, if any, in each case calculated in accordance with GAAP, in respect of such Trailing Twelve Quarters.

Under the Capital Gains Incentive Fee, the Company is obligated to pay GECM at the end of each calendar year 20% of the aggregate cumulative realized capital gains from November 4, 2016 through the end of that year, computed net of aggregate cumulative realized capital losses and aggregate cumulative unrealized depreciation through the end of such year, less the aggregate amount of any previously paid capital gains incentive fees.

For the six months ended June 30, 2019 and 2018, the Company incurred Income Incentive Fees of \$1,445 and \$(1,183), respectively. As of June 30, 2019 and December 31, 2018, \$6,867 and \$5,422 of Income Incentive Fees, respectively, remained payable and none was immediately payable after calculating the total return requirement. These payable amounts may include both Accrued Unpaid Income Incentive Fees and amounts deferred under the total return requirement and will become due upon meeting the criteria described above. For the six months ended June 30, 2019 and the year ended December 31, 2018, the Company did not have any Capital Gains Incentive Fees accrual.

GECC's largest investment, Avanti Communications Group plc (Avanti), has generated significant non-cash income in the form of payment-in-kind (PIK) interest. In connection with the recent restructuring of Avanti completed on April 26, 2018, GECC's investment in Avanti's third lien notes was converted into Avanti common equity. As a result of this debt-for-equity conversion, we have determined that the accrued incentives fees payable associated with the portion of such PIK interest generated by the third lien notes should not at this time be recognized as a liability and as such we have reversed for prior periods.

The Investment Management Agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, GECM and its officers, managers, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from the Company for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of GECM's services under the Investment Management Agreement or otherwise as an investment adviser of the Company.

**Administration Fees.** The Company has an administration agreement (the "Administration Agreement") with GECM to provide administrative services, including, among other things, furnishing the Company with office facilities, equipment, clerical, bookkeeping and record keeping services. The Company will reimburse GECM for its allocable portion of overhead and other expenses of GECM in performing its obligations under the Administration Agreement.

GECM agreed that the aggregate amount of expenses accrued for reimbursement pursuant to the Administration Agreement that pertain to direct compensation costs of financial, compliance and accounting personnel that perform services for the Company, inclusive of the fees charged by any sub-administrator to provide such financial, compliance and/or accounting personnel to the Company (the "Compensation Expenses"), during the year ending November 4, 2017, when taken together with Compensation Expenses reimbursed or accrued for reimbursement by the Company pursuant to the Investment Management Agreement during such period, shall not exceed 0.50% of the Company's average net asset value during such period.

The Administration Agreement provides that, absent willful misfeasance, bad faith or negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, GECM and its officers, managers, partners, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from the Company for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of GECM's services under the Administration Agreement or otherwise as administrator for the Company.

For the six months ended June 30, 2019 and 2018, the Company incurred expenses under the Administration Agreement of \$452 and \$797, respectively. As of June 30, 2019 and December 31, 2018, \$162 and \$329 remained payable, respectively.

#### 4. FAIR VALUE MEASUREMENT

The fair value of a financial instrument is the amount that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price).

The fair value hierarchy under ASC 820 prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The levels used for classifying investments are not necessarily an indication of the risk associated with investing in these securities. The three levels of the fair value hierarchy are as follows:

##### Basis of Fair Value Measurement

- |         |   |
|---------|---|
| Level 1 | Investments valued using unadjusted quoted prices in active markets for identical assets.   |
| Level 2 | Investments valued using other unadjusted observable market inputs, e.g. quoted prices in markets that are not active or quotes for comparable instruments.   |
| Level 3 | Investments that are valued using quotes and other observable market data to the extent available, but which also take into consideration one or more unobservable inputs that are significant to the valuation taken as a whole. |

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Note 2 should be read in conjunction with the information outlined below.

The table below presents the valuation techniques and the nature of significant inputs generally used in determining the fair value of Level 2 and Level 3 Instruments.

#### Level 2 Instruments Valuation Techniques and Significant Inputs

**Equity, Bank Loans, Corporate Debt, and Other Debt Obligations** The types of instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency may include commercial paper, most government agency obligations, certain corporate debt securities, certain mortgage-backed securities, certain bank loans, less liquid publicly-listed equities, certain state and municipal obligations, certain money market instruments and certain loan commitments.

Valuations of Level 2 debt and equity instruments can be verified to quoted prices, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency. Consideration is given to the nature of the quotations (e.g. indicative or firm) and the relationship of recent market activity to the prices provided from alternative pricing sources.

#### Level 3 Instruments Valuation Techniques and Significant Inputs

**Bank Loans, Corporate Debt, and Other Debt Obligations** Valuations are generally based on discounted cash flow techniques, for which the significant inputs are the amount and timing of expected future cash flows, market yields and recovery assumptions. The significant inputs are generally determined based on an analysis of market comparables, transactions in similar instruments and/or recovery and liquidation analyses.

**Equity** Recent third-party investments or pending transactions are considered to be the best evidence for any change in fair value. When these are not available, the following valuation methodologies are used, as appropriate and available:

- Transactions in similar instruments;
- Discounted cash flow techniques;
- Third party appraisals; and
- Industry multiples and public comparables.

Evidence includes recent or pending reorganizations (for example, merger proposals, tender offers and debt restructurings) and significant changes in financial metrics, including:

- Current financial performance as compared to projected performance;
- Capitalization rates and multiples; and
- Market yields implied by transactions of similar or related assets.

As noted above, the income and market approaches were used in the determination of fair value of certain Level 3 assets as of June 30, 2019 and December 31, 2018. The significant unobservable inputs used in the income approach are the discount rate or market yield used to discount the estimated future cash flows expected to be received from the underlying investment, which include both future principal and interest payments. An increase in the discount rate or market yield would result in a decrease in the fair value. Included in the consideration and selection of discount rates is risk of default, rating of the investment (if any), call provisions and comparable company valuations. The significant unobservable inputs used in the market approach are based on market comparable transactions and market multiples of publicly traded comparable companies. Increases or decreases in market multiples would result in an increase or decrease, respectively, in the fair value.

The following is a summary of the Company's investment assets categorized within the fair value hierarchy as of June 30, 2019:

<b>Assets</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>

- (1) Purchases may include new deals, additional fundings (inclusive of those on revolving credit facilities), refinancings, capitalized PIK income, and securities received in corporate actions and restructurings. Sales and Settlements may include scheduled principal payments, prepayments, sales and repayments (inclusive of those on revolving credit facilities), and securities delivered in corporate actions and restructuring of investments.
- (2) The net change in unrealized depreciation relating to Level 3 assets still held at June 30, 2019 totaled \$(7,574) consisting of the following: \$(2,448) related to debt investments and \$(5,126) related to equity/other. The net change in unrealized depreciation relating to Level 3 assets still held at December 31, 2018 totaled \$(6,833) consisting of the following: \$(6,833) related to debt investments and \$0 relating to equity/other.

There were no transfers between levels during the three and six months ended June 30, 2019. One security with a fair value of \$28,807 was transferred into the Level 3 hierarchy and three securities with a fair value of \$16,237 were transferred from Level 3 to Level 2 during the year ended December 31, 2018. All transfers during the year ended December 31, 2018 were the result of changes in pricing transparency.

The following tables present the ranges of significant unobservable inputs used to value the Company's Level 3 assets as of June 30, 2019 and December 31, 2018, respectively. These ranges represent the significant unobservable inputs that were used in the valuation of each type of instrument, but they do not represent a range of values for any one instrument. For example, the lowest yield in 1st Lien Debt is appropriate for valuing that specific debt investment, but may not be appropriate for valuing any other debt investments in this asset class. Accordingly, the ranges of inputs presented below do not represent uncertainty in, or possible ranges of, fair value measurements of the Company's Level 3 assets.

(1) The fair value of any one instrument may be determined using multiple valuation techniques or unobservable inputs.

(2) Weighted average for an asset category consisting of multiple investments is calculated by weighting the significant unobservable input by the relative fair value of the investment. The range and weighted average for an asset category consisting of a single investment represents the significant unobservable input used in the fair value of the investment.

(3) Comparable price may include broker quotes for the exact security or similar securities.

(4) Investments valued using the asset recovery or liquidation technique include investments for which valuation is based on current financial data without a discount rate applied.

## 5. DEBT

On November 3, 2016, the Company assumed \$33,646 of Full Circle 8.25% Senior Notes due 2020 (the "2020 Notes") in connection with the Merger by executing the second supplemental indenture dated November 3, 2016. The 2020 Notes had a maturity date of June 30, 2020 and on October 20, 2017 we redeemed them completely at their par value plus accrued and unpaid interest.

On September 13, 2017, we offered \$28,375 in aggregate principal amount of 6.50% notes due 2022 (the "GECCL Notes"). On September 29, 2017, we sold to several underwriters an additional \$4,256 of the GECCL Notes upon full exercise of the underwriters' over-allotment option.

The GECCL Notes are our unsecured obligations and rank equal with all of our outstanding and future unsecured unsubordinated indebtedness. The GECCL Notes are effectively subordinated, or junior in right of payment, to any future secured indebtedness that we may incur and structurally subordinated to all future indebtedness and other obligations of our subsidiaries. We pay interest on the GECCL Notes on January 31, April 30, July 31 and October 31 of each year. The GECCL Notes will mature on September 18, 2022 and can be called on, or after, September 18, 2019. Holders of the GECCL Notes do not have the option to have the GECCL Notes repaid prior to the stated maturity date. The GECCL Notes were issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

On January 11, 2018, we offered \$43,000 in aggregate principal amount of 6.75% notes due 2025 (the "GECCM Notes"). On January 19, 2018 and February 9, 2018, we sold an additional \$1,898 and \$1,500 of the GECCM Notes upon partial exercise of the underwriters' over-allotment option.

The GECCM Notes are our unsecured obligations and rank equal with all of our outstanding and future unsecured unsubordinated indebtedness. The GECCM Notes are effectively subordinated, or junior in right of payment, to any future secured indebtedness that we may incur and structurally subordinated to all future indebtedness and other obligations of our subsidiaries. We pay interest on the GECCM Notes on March 31, June 30, September 30 and December 31 of each year. The GECCM Notes will mature on January 31, 2025 and can be called on, or after, January 31, 2021. Holders of the GECCM Notes do not have the option to have the GECCM Notes repaid prior to the stated maturity date. The GECCM Notes were issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

On June 18, 2019, we offered \$42,500 in aggregate principal amount of 6.50% notes due 2024 (the "GECCN Notes"), which included \$2,500 of the GECCN Notes sold in connection with the partial exercise of the underwriters' over-allotment option.

The GECCN Notes are our unsecured obligations and rank equal with all of our outstanding and future unsecured unsubordinated indebtedness. The GECCN Notes are effectively subordinated, or junior in right of payment, to any future secured indebtedness that we may incur and structurally subordinated to all future indebtedness and other obligations of our subsidiaries. We pay interest on the GECCN Notes on March 31, June 30, September 30 and December 31 of each year beginning September 30, 2019. The GECCN Notes will mature on June 30, 2024 and can be called on, or after, June 30, 2021. Holders of the GECCN Notes do not have the option to have the GECCN Notes repaid prior to the stated maturity date. The GECCN Notes were issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

As part of the offerings, the Company incurred fees and costs, which are treated as a reduction of the carrying amount of the debt on our Statements of Assets and Liabilities. These deferred financing costs presented as a reduction to the Notes payable balance are being amortized into interest expense over the term of the Notes.

The Investment Company Act limits, with certain exceptions, the Company's borrowing such that its asset coverage ratio, as defined in the Investment Company Act, is at least 1.5 to 1 after such borrowing.

Information about the Company's senior securities (including debt securities and other indebtedness) is shown in the following table:

- (1) Total amount of each class of senior securities outstanding at the end of the period presented.
- (2) Asset coverage per unit is the ratio of the carrying value of Great Elm's total consolidated assets, less all liabilities and indebtedness not represented by senior securities, to the aggregate amount of senior securities representing indebtedness. Asset coverage per unit is expressed in terms of dollar amounts per \$1,000 of indebtedness.
- (3) The amount to which such class of senior security would be entitled upon the voluntary liquidation of the issuer in preference to any security junior to it.
- (4) The average market value per unit for the Notes, as applicable, is based on the average daily prices of such notes and is expressed per \$1.00 of indebtedness.

The indenture's covenants, include compliance with (regardless of whether the Company is subject to) the asset coverage requirements set forth in Section 18(a)(1)(A) as modified by Section 61(a)(1) of the Investment Company Act, as well as covenants requiring the Company to provide financial information to the holders of the Notes and the Trustee if the Company ceases to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the Indenture. The Company may repurchase the Notes in accordance with the Investment Company Act and the rules promulgated thereunder. As of June 30, 2019, the Company had not repurchased any of the Notes. As of June 30, 2019 and December 31, 2018 the Company was in compliance with all covenants under the indentures.

For the three and six months ended June 30, 2019 and 2018, the components of interest expense were as follows:

## 6. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Company may enter into investment agreements under which it commits to make an investment in a portfolio company at some future date or over a specified period of time. As of June 30, 2019, the Company had approximately \$20,206 in unfunded loan commitments, subject to the Company's approval in certain instances, to provide debt financing to certain of its portfolio companies. To the degree applicable, unrealized gains or losses on these commitments as of June 30, 2019 are included in the Company's Statement of Assets and Liabilities and the corresponding Schedule of Investments. The Company believes that it had sufficient cash and other liquid assets on its balance sheet to satisfy the unfunded commitments.

From time to time, we, our investment adviser or administrator may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies.

We are named as a defendant in a lawsuit filed on March 5, 2016, and captioned Intrepid Investments, LLC v. London Bay Capital, which is pending in the Delaware Court of Chancery. The plaintiff immediately agreed to stay the action in light of an ongoing mediation among parties other than us. This lawsuit was brought by a member of Speedwell Holdings (formerly known as The Selling Source, LLC), one of our portfolio investments, against various members of and lenders to Speedwell Holdings. The plaintiff asserts claims of aiding and abetting, breaches of fiduciary duty, and tortious interference against us. In June 2018, Intrepid Investments, LLC ("Intrepid") sent notice to the court and defendants effectively lifting the stay and triggering defendants' obligation to respond to the Intrepid complaint. In September 2018, we joined the other defendants in a motion to dismiss on various grounds. In February 2019, Intrepid filed a second amended complaint to which defendants filed a renewed motion to dismiss in March 2019. We intend to continue to monitor the matter and will assess the need to defend the matter further as necessary.

In July 2016, Full Circle filed suit in the District Court of Caldwell County, Texas against, among others, Willis Pumphrey for breach of a guaranty agreement arising from a loan transaction with Full Circle. Dr. Pumphrey, a personal guarantor of the loan made by Full Circle, our predecessor in interest, brought counterclaims in (i) the District Court of Caldwell County, Texas and (ii) the District Court of Harris County, Texas (the "District Court") against, among others, Justin Bonner, an employee of GECCM, in each case, alleging breach of a confidentiality agreement and tortious interference with Dr. Pumphrey's attempted sale of a business in which he owned an interest. In August 2017, Dr. Pumphrey voluntarily withdrew his complaint against Mr. Bonner and Full Circle in the District Court of Harris County, Texas. In November 2017, Dr. Pumphrey voluntarily withdrew his complaint without prejudice against Full Circle in the District Court of Caldwell County, Texas. On November 29, 2017, Dr. Pumphrey refiled his claims in the District Court of Harris County, Texas naming Full Circle, MAST Capital, GECC and GECCM as defendants. Dr. Pumphrey is seeking between \$2 million and \$6 million in damages. GECC believes Dr. Pumphrey's claims to be frivolous and intends to vigorously defend them. Furthermore, we continue to pursue our initial claims against Dr. Pumphrey in the District Court of Caldwell County, Texas.

In September 2018, we (as successor by merger to Full Circle), the other lenders, and the lender trustee under PEAKS Trust 2009-11 (“PEAKS Trust”), were named as defendants in a claim brought by the Chapter 7 trustee in the ITT Educational Services bankruptcy. Full Circle purchased via assignment a portion of the PEAKS Trust senior secured facility from Deutsche Bank Trust Company Americas in December 2016. The PEAKS Trust senior secured facility was supported by an underlying portfolio of student loans and guaranteed by ITT Educational Services, Inc. (“ITT”). In September 2016, ITT and its affiliates filed for relief under Chapter 7 of the Bankruptcy Code. Following the Chapter 7 filing, a trustee was appointed who initiated a proceeding against certain Deutsche Bank entities and the investors in the PEAKS Trust, including GECC. On November 2, 2018, the trustee filed a motion seeking to stay the litigation in order to facilitate settlement. We are continuing to monitor these proceedings.

## 7. INDEMNIFICATION

Under the Company’s organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Company. In addition, in the normal course of business the Company expects to enter into contracts that contain a variety of representations which provide general indemnifications. The Company’s maximum exposure under these agreements cannot be known; however, the Company expects any risk of loss to be remote.

## 8. CAPITAL TRANSACTIONS

In March 2019, the Company implemented a stock buyback program pursuant to Rule 10b5-1 and Rule 10b-18 under the Exchange Act (the “buyback program”) authorizing us to repurchase our common stock in open market transactions in an aggregate amount of up to \$5,000 through December 31, 2019, unless extended or terminated by our Board. During the three and six months ended June 30, 2019, the Company purchased 397,719 shares and 589,719 shares, respectively, under the buyback program at a weighted average price of \$8.45 per share.
